Course Summary

TESOL 101 offers a comprehensive look at Teaching English to Speakers of Other Languages (TESOL) through five key chapters. Beginning with foundational concepts in Chapter 1, the course covers language abbreviations, ice breakers, and non-verbal communication. Chapter 2 examines the impact of learners' age on language acquisition, while Chapter 3 focuses on proficiency levels and learning styles. In Chapter 4, various language teaching approaches and methodologies are explored, followed by Chapter 5, which addresses classroom management techniques and error correction strategies. Through interactive multimedia resources, participants gain practical insights into effective ESL teaching practices.
